

SYSTRAN 7

Home Translator

Connect with others faster than ever in multiple languages with the world's leading language translation software!

Designed for everyday personal and office use, SYSTRAN 7 Home Translator makes communicating in multiple languages easy. It automatically learns new terminology to improve the quality of your translations. Quickly translate and understand Word documents, Web pages, emails, all texts and tweets. Save and reuse previous translations for future use. Translate anytime, anywhere from your PC or online.

SYSTRAN 7 Key Features

- Interactive Translator with smart dictionary lookup and intuitive translation choices
- Toolbar for Microsoft Word
- Larousse and SYSTRAN dictionaries
- Customization Wizard adapts translation from your texts
- Dictionary Manager includes your terminology in translations
- Translate offline and online with predefined and custom profiles

The new SYSTRAN Toolbar for Word is integrated within Microsoft Word 2010, 2007 and 2003. Just click and create a translated document while preserving the original document's layout.

The new SYSTRAN Interactive Translator provides alternative meanings in the right pane.

Highlighted words display alternative translations.

Selected by leading Internet portals, global corporations, and the US intelligence community, SYSTRAN is the leading supplier of language translation software.

- Patented translation engine
- More than 50 available language pairs
- Integrated dictionaries with millions of words and expressions
- Terminology from Larousse
- Spelling and grammar checkers
- Automatic detection of acronyms, entities (names, dates, time, etc.), source language, and more
- Translation profile management
