

SYSTRAN

Desktop Products

SYSTRAN's world-leading language-translation software helps individuals and businesses communicate and collaborate effectively in multiple languages. Each of our desktop-translation products are designed for specific user groups and compatible with the most popular file formats, from plain text, Web pages and office documents to emails, PDFs and translation memories, plus various multilingual glossaries.

Whether your objective is personal, business related or to improve your professional translation service, we offer a product that's ideally suited to your needs.

To use SYSTRAN Desktop Products, your system must meet the following minimum requirements:

PROCESSOR	PC with Intel® Pentium® 1.2 GHz processor, or equivalent AMD® processor, or higher
MEMORY	Minimum 1 GB RAM (Windows XP), 2 GB RAM (higher Windows versions), recommended 4 GB RAM
DISK SPACE	300 MB for base software, 100 MB per language pair, 500 MB available free space during installation, plus additional space as needed to unzip downloaded product
OPERATING SYSTEM	Microsoft® Windows XP Home, XP Professional, Windows Vista, Windows 7 (32- or 64-bit OS) or Windows 8 (32- or 64-bit OS)

You must also have the following products installed on your PC to fully use SYSTRAN Interactive Translator and the SYSTRAN Toolbar:

MICROSOFT OFFICE	Microsoft® Office® XP, 2003, 2007, 2010 (32-bit) or 2013 (32-Bit)
WEB BROWSER	Microsoft® Internet Explorer® (32-bit) 7, 8, 9, 10 or later (free download available at www.microsoft.com) or Mozilla® Firefox® 4 or later (free download available at www.mozilla.com) (32 bits only on 32- or 64-bit Windows)

Note: Performance and speed will be enhanced if your computer's processor, memory and available disk space exceed minimum requirements.
