

# SYSTRAN Online Services

## SYSTRANLinks

### The most comprehensive website-localization solution

SYSTRANLinks offers you an innovative and reliable online CMS platform that lets you launch and manage your localization projects with unprecedented ease – all from an intuitive centralized base.

In just a few clicks, SYSTRANLinks reproduces, pre-translates and hosts your new websites. And it gives you a rich range of user-friendly tools that allow you to constantly enhance your content and manage the entire localization process more easily.

TOTAL SITE REPRODUCTION	COLLABORATIVE PLATFORM	INTUITIVE INTERFACE	INTELLIGENT TOOLS	RELIABLE HOSTING
In just a few clicks, automatically reproduce your entire website in the languages of your choice.	Fine-tune and revise translations yourself or invite professional translators via a Cloud-based platform.	Work on your content in its proper context thanks to the intuitive post-editing interface.	Benefit from a wide range of intelligent tools, including Pages Toolkit, Sentence Toolkit, User dictionary Toolkit and more.	All your localized content is hosted with a high level of availability and security.

## Translate API

### Offer seamless translation services to your end-users

SYSTRAN Translate API is a Cloud-based solution that helps developers offer real-time translation of text and HTML content across a broad range of applications and services.

#### Key features

- Translation API based on REST (AJAX/http) software architecture and JSON (JavaScript Object Notation)
- Translation from and to 15 languages (210 combinations between Arabic, Simplified Chinese, Dutch, French, English, German, Greek, Italian, Japanese, Korean, Polish, Portuguese, Russian, Spanish, Swedish)
- Automatic language detection of any text
- Developer-friendly client libraries and samples, available in popular programming languages, including .Net/Java/Javascript/Python/Perl/PHP/Ruby
- Volume-based pricing model
